HENDERSON DIRECTORIES, LIMITED
PUBLISHERS

Introductory

The present volume constitutes the 1934 edition of Henderson's Directory of Saskatoon. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the Municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 41 to 72 and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE is embraced in pages 73 to 170; in this feature the names of all streets and avenues are arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 171 to 514.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 515 to 596, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING SASKATOON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Saskatoon, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers

HENDERSON DIRECTORIES LIMITED.

City of Saskatoon

Saskatoon is situated in Township 36, Range 5, west of the Third Meridian, on the banks of the South Saskatchewan River. It is the geographical and commercial centre of Central Saskatchewan. It is served by the Canadian National and Canadian Pacific Railways.

The portion of the City on the east side of the river was originally known as East Saskatoon, but as the original villages grew and confusion between the post offices resulted, the name "East Saskatoon" was changed to Nutana, a word which is claimed by some to have had an Indian origin, meaning "first born," because it was the first settlement.

The name Saskatoon is derived from the Indian Cree name "Mis-sask-qua-too-mina," or "Mis-sas-a-too-mina," and sometimes contracted into "Saskatoomina." This word is plural. The singular is secured by dropping the final "a." The name was given by the Indians to the berry which is found in such profusion in this vicinity and commonly referred to now as the "Saskatoon Berry," or "Saskatoons." According to a member of the original survey party, the Indians used to gather large quantities of these berries and walk through the camps selling them, crying which sounded to the members of the party like "Saskatoons, Saskatoons."

The city lies 216 miles north of the boundary between the United States and Canada, 140 miles from the Western and 215 miles from the Eastern boundary of the Province, so that its position is central. It is the only large city in the direct line between Winnipeg and Edmonton, being almost midway between the two, 450 miles northwest of Winnipeg and a little over 300 miles southeast of Edmonton.

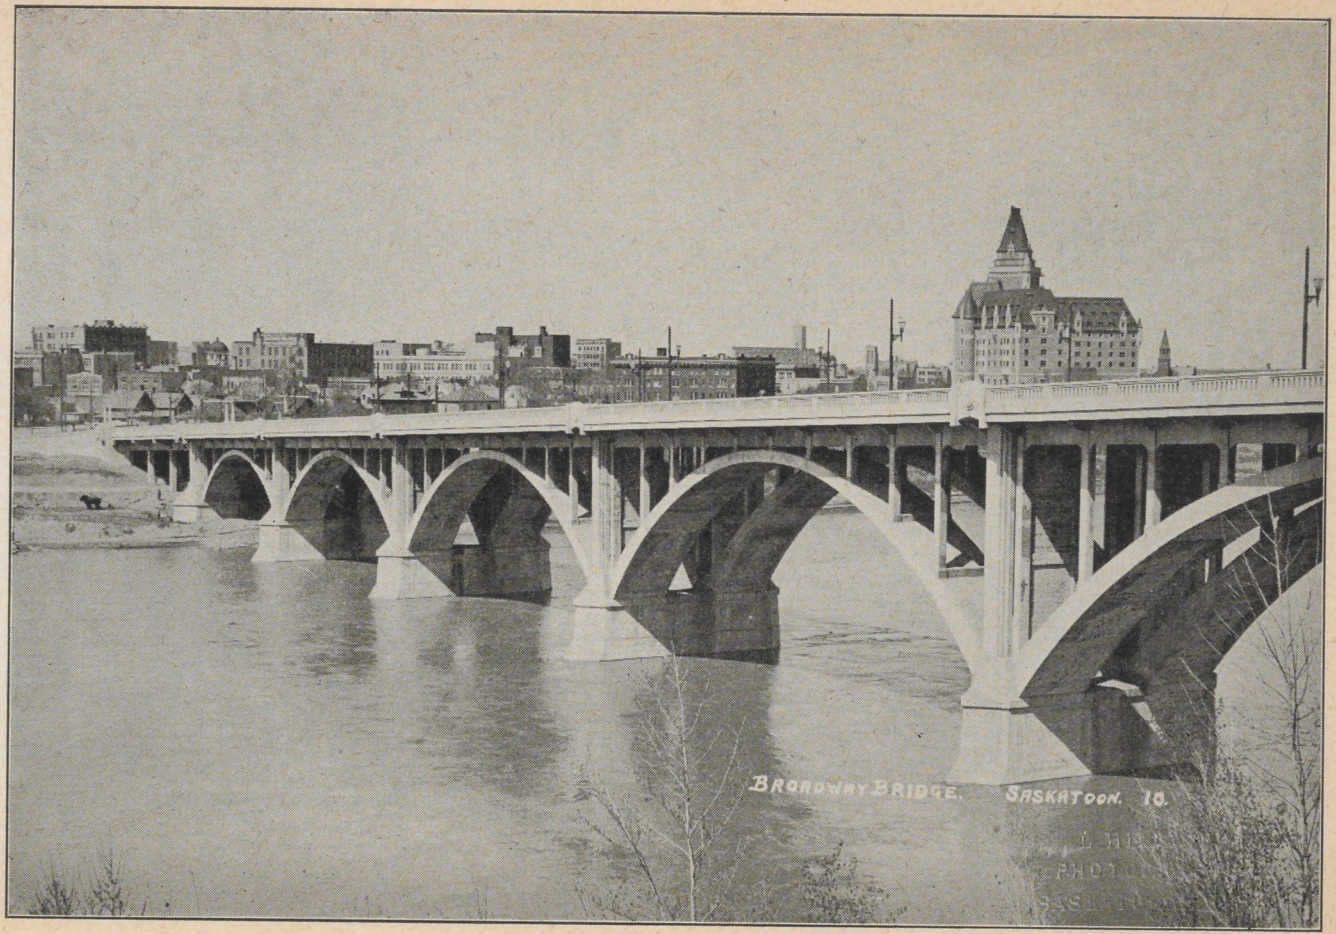

Six bridges, the newest being a handsome arched structure of reinforced concrete, costing upwards of $800,000, cross the river within the city limits. Four of these bridges join the central portions of the city, three of them being for vehicular and pedestrian traffic, while the fourth carries the Canadian National Railway tracks and has a footpath alongside. The remaining two are railway bridges, one carrying the Canadian Pacific and the other the Canadian National Railway rails. To the east of Saskatoon, the modern city resulting from the uniting of the villages of West Saskatoon, Nutana and Riversdale and their subsequent allied growth and about a mile away lies the town of Sutherland, where are the C. P. R. roundhouse and car repair tracks. Sutherland is an incorporated town but is united to Saskatoon by street car tracks, as well as by rail, and this route is part of the regular city service.

The natural fertility of the surrounding district which is well settled, and the unique position of Saskatoon as a distributing point are the main contributing factors to the city's prosperity and growth.

The townsite was surveyed in 1886, but the first railway did not come in until 1892. In 1899 Saskatoon consisted of a few houses on the east side of the river, while on the west side was the station house, the section foreman's residence, the Royal Northwest Mounted Police Barracks, a stone building, a hotel and about six other houses and shacks. About this time property in what is now the central portion of the city sold for $45 for 75 feet. In 1901 Saskatoon was incorporated as a village, and in 1902 the first weekly newspaper was published bearing the title of "Saskatoon Phoenix." In 1903 the town charter was obtained. In 1906 Saskatoon became a city, the population being estimated at 5,000.

Following the formation of the Province of Saskatchewan in 1905, the locating of the capital and the university became live public questions. It was believed at that time that owing to its central location Saskatoon would be chosen as the capital, but eventually a compromise was reached whereby Regina became the seat of government and the Provincial University was placed at Saskatoon.

From 1906 onwards expansion was very rapid, becoming phenomenal about 1912, until today Saskatoon stands a city of handsome buildings and well paved streets, with electric street railway and bus service. In the residential sections the boulevarding system obtains, giving the streets a very attractive appearance. The broad South Saskatchewan River, which flows through the middle of the city between high banks covered with an abundance of trees, shrubbery and other natural growth, lends a pleasing aspect, eliminating the tiresome monotony usually associated with centres of population

established upon the prairies. This river, with its source in the Rocky Mountains, provides an unlimited supply of purest water which is chemically treated over modern sedimentation beds and a filtration plant. No matter how large the city may grow, Saskatoon can supply water freely to meet all domestic and industrial requirements at low cost. With the new government power plant adequate water pressure is assured for fire protection.

Not only is Saskatoon in the populated centre of Saskatchewan, but it is also in the centre of Western Canada. By placing a finger on the centre of any map of Western Canada one cannot avoid placing it on Saskatoon.

Saskatoon has strategic advantage for Industrial Plants.

This city is at the dividing point between east and west regarding freight rates. Hence it has the lowest differential of any western city, giving millers and other industrial firms the choice of three outlets to the markets of the world. This is made possible by the application of the Crow's Nest rates to the Hudson Bay Railway route. Saskatoon is the inland terminal of the Hudson Bay route, just 814 miles from tidewater at Churchill.

Freight rates on grain and grain products are particularly favourable from Saskatoon, i.e.:—

RATES IN CENTS PER 100 Lbs.

Saskatoon to Churchill	21 cents
Saskatoon to Fort William	22 cents
Saskatoon to Vancouver	24 cents

No other shipping centre can offer such a low differential. This is the undisputed advantage to Saskatoon which has made this city the milling and grain centre of the Province, and bids fair to make her the "Minneapolis of Western Canada."

The fact that Saskatoon is in the centre of a rich agricultural area, having the advantageous shipping rates as shown, gives this city almost unlimited possibilities for the manufacture and distribution of milling products.

The Quaker Oats Company, storage capacity 1,500,000 bushels and Robin Hood Mills Limited, storage capacity 1,300,000 bushels, operate large flour and cereal mills here with a total capacity of over 6,050 barrels daily. Quite recently increasing demand for production necessitated a $500,000.00 expansion of the Robin Hood plant, and the addition of large new storage bins for the Quaker Oats Co.

Saskatoon has, in addition, a Dominion Government Terminal storage elevator with a capacity of 5,500,000 bushels. This brings the total terminal storage facilities at Saskatoon to 8,300,000 bushels.

This is all required to store the tremendous crop harvested annually in central Saskatchewan, in addition to the countless number of country elevators. With the increasing flow of grain overseas from Churchill via the Hudson Bay Railway, grain in greater volume necessarily will have to be stored at Saskatoon awaiting export.

Saskatoon had the honour of shipping the first trainload of wheat for export via the Hudson Bay route by the "S.S. Farnworth" on September 18th, 1931. This initial movement marked the opening of this new world trade lane, now on the eve of a development beyond realization, a trade route which will not only increase Saskatoon's importance as a grain centre, but also will enhance greatly her industrial possibilities, and establish her as the Saskatchewan Hudson Bay route inland terminal.

Saskatoon is the only large city in Central Saskatchewan. The vast surrounding territory is wholly hers because she has the competitive railways facilities, and distributing freight rates to control it absolutely as follows:

On carloads shipped in, Saskatoon's wholesale distributing territory extends to about 48,600 square miles, stretching far into Alberta—indeed to within 82 miles east of Edmonton—and even now embracing over two hundred points on no fewer than 3,000 miles of operating railways—a distance 748 miles longer than that from Montreal to Calgary, per C.P.R.

On goods manufactured locally, such as flour, Saskatoon controls a distributing area of about 70,000 square miles, within which there are at present 300 young towns and villages.

LEADING INDUSTRIES

Saskatoon has the only powdered milk plant in the province. The same plant also manufactures an excellent cheese, the production of which has increased from 1200 to 1600 pounds daily, and the industry is still unable to

meet the demand in Saskatchewan though requests are being made for the sale to be extended to other parts of the Dominion.

A growing industry is the John East Iron Works, the leading plant of its kind in Saskatchewan. Begun in a small way when Saskatoon was but a town it has grown to be an important manufacturing plant handling all types of steel and iron work, from small machinery repair parts to light standards, furnaces, building steel, etc. The large moulding shop is completely stocked with patterns of all kinds. The plant gives employment to a large number of men and the pay roll is an important civic asset.

Of major importance is the plant of the Richardson Road Machinery Co. with its complete equipment for the production of steel culverts, scrapers, graders, trenching machinery, etc. The largest graders used in the Dominion of Canada are produced at this plant and have been supplied to all western provinces for road construction as far as the Pacific Coast.

Other Saskatoon industries include abattoir and packing house products, creamery products, powdered egg products, wholesale bread, flour and cereal mills, grist mills, jams and jellies, aerated waters, malt liquors, chick hatcheries, chemical products, oil refinery products, agricultural implements, iron work, corrugated culverts, woodworking such as sash and doors, boxes, millwork, interior finishing, foundries, textile weaving, welding, metal shingles and siding, nursery products, granaries, silos, tanks, garages, marble works, tents and mattresses, automotive parts, barber supplies, raw furs, etc. Ceramic ware of excellent quality is produced from native clays.

LIVESTOCK MARKETING CENTRE

Saskatoon—a centre for mixed farming—has built up a most promising livestock marketing business. Already the Union Stockyards of Saskatoon Limited assisted in part by the firm of Rosa and Wikstrand have made Saskatoon one of the largest livestock centres in Western Canada, handling more livestock than the combined business centres of the rest of the province. The Board of Trade, Industrial Exhibition, and the University Department of Animal Husbandry have had much to do with this development, having instituted and promoted competitive scientific feeding and fattening, so that a higher standard of quality in stock has resulted, along with greatly increased production.

SASKATOON INDUSTRIAL EXHIBITION

Saskatoon held the first Free Fair in the Dominion in 1932 when an attendance of over 155,000 was recorded. The Exhibition covers 80 acres. The plant represents an expenditure of over half-a-million dollars. The Exhibition depicts the agricultural, industrial and commercial progress of the province, its fine arts and educational work. The fireproof grandstand has a capacity of over 7,000 persons.

THE PROVINCIAL EDUCATIONAL CENTRE

The University of Saskatchewan, on the east bank of the river, has a site of nearly 2,000 acres. The group of buildings now number twenty-six. Established in 1909, its growth has been healthy and rapid. This University is now recognized as one of Canada's outstanding educational institutions. It was the last of the Canadian Universities to begin teaching. It was the first in Canada to give Agriculture its rightful place beside Arts, the Sciences and the Professions.

It teaches Arts, Sciences, Agriculture, Law Engineering, Pharmacy, Accounting and Pre-Medical studies.

The University maintains health laboratories for men, plants, and animals; does much research work, especially in Agriculture, Biology, Chemistry and Engineering; conducts a soil survey and features the development of the clay resources of the Province in its Ceramics Department.

The entire province is dependent on this advanced educational system.

Saskatoon has a Normal School, three Collegiates, Technical School, Institute for the Deaf, eighteen elementary schools, three separate schools, one convent, three church colleges, three business colleges, one Ukrainian Institute, one Hebrew school, a conservatory of music.

In the Public Schools, expenditures varied from $54,000 to $246,000 on each building.

MUNICIPAL OWNERSHIP IN FAVOUR

The citizens favour municipal ownership so far as it is deemed practicable and judicious, and now control their water, light, power, street railway, sewerage, two libraries and a hospital.

PUBLIC BUILDINGS

Among her prominent public buildings, two important government structures must be referred to, namely, the new C.N.R. Hotel—The Bessborough—a magnificient structure, and the Federal Building, wherein are housed the Post Office and all the important Federal offices required in the province, such as Customs, Seed Departments, Income Tax, etc.

SASKATOON ATTRACTIVE FOR TOURISTS

Tourists converge through Saskatoon over the main all-weather highways from all parts of the province. Its beautiful panoramic river views through the heart of the city arrest the attention. Aided by this natural setting, the citizens have spared no efforts to make Saskatoon attractive. Seventeen parks, with paddling pools and sporting facilities, adorn the city. The residential sections reveal homes of striking architectural design set in a pleasing environment of green lawns, shrubbery and flower borders. These charming gardens and winding drives surprise and delight the eye. The Dominion Government's Forestry Farm is a beauty spot that draws many visitors.

The civic swimming pool, four picturesque golf courses, the aviation harbour, bowling greens, tennis courts and theatres, all offer recreation and amusement.

Many pleasure resorts are within comfortable driving distance. Saskatchewan's new playground, the Prince Albert National Park, may be reached in five hours. There the tourist finds a veritable wilderness of forest, streams and lakes with excellent fishing, and hotel accommodation. **Manitou Lake,** the "Karlsbad" of Canada, is but two hours distant.

Other lake resorts are easily reached and the tourist is well repaid who uses Saskatoon as his base of supply, where a well-equipped tourist camp is operated by the Saskatchewan Motor Club.

CENTRAL WHOLESALE DISTRIBUTION

Saskatoon is recognized as a wholesale distributing centre of major importance. Under normal economic conditions her increasing trade requires an army of nearly one thousand commercial travellers who make the city their headquarters.

With excellent transportation and terminal accommodation, Saskatoon's industrial plants are increasing.

Manufacturers know it pays to "Ship from the Centre instead of the Rim."

RAILWAY FACILITIES

Saskatoon is the "Hub" of a network of railway lines tapping all parts of Saskatchewan. It is the midwestern headquarters of the Canadian National Railways, which, with the Canadian Pacific through line converging here, affords the splendid facilities that, combining with her natural geographic advantages, make this city central to all important towns and cities of the prairie provinces.

RETAIL SHOPPING CENTRE

With such transportation services and excellent postal facilities, Saskatoon commands a marked advantage in the quick and economical distribution of commodities. Because of these things Saskatoon is regarded as the leading retail shopping centre of the province. With large modern departmental stores, chain stores, and the privately owned establishments, Saskatoon draws its shoppers from a wide territory.

WHY HAS SASKATOON GROWN SO RAPIDLY?

Not alone to its geographical location, its transportation advantages does Saskatoon owe its rapid growth.

The "Saskatoon Spirit," born of the early vicissitudes of its hardy pioneers, has done much to increase its population from 113 souls in 1903 to some 45,000 today. The present population is 67.8% greater than the population ten years ago. The truth is told by Mr. D. C. Coleman, Vice-President of the C. P. R. when in opening the 1930 Saskatoon Industrial Exhibition, he said:

> "Trade cannot fight against geography, and the geographical position of Saskatoon is such that it is bound to be the commercial capital of, and to share in the accumulation of a vast area of much richness.
>
> The builders of Saskatoon were men of self-reliance, fortitude and vision. Minor obstacles and temporary disappointment never daunted them. If those who are following on will always gaze upon the city with the same eyes of faith and affection, you need have no apprehension as to its ultimate greatness."

COLLEGIATE INSTITUTES

Nutana Collegiate Institute, cor. 11th Street and Victoria Ave. Bedford Road Collegiate Institute and Bedford Road and Ave. H.

The Nutana Building, erected in 1910, is still one of the best buildings of its kind in the west, commanding from its site on the high bank of the Saskatchewan River a fine view of the city and surrounding country. This building has full basement, three storeys, full gymnasium and an auditorium capable of holding 500 people.

The Bedford Road building, first building erected 1923, has partial basement, manual training room and 17 classrooms; second building added 1926, comprises a spacious auditorium-gymnasium and six classrooms. The building as now completed, is as completely fitted as any building of its purpose in Canada.

City Park Collegiate was built in 1929 at the corner of Duke St. and Ninth Avenue, overlooking the Saskatchewan River. This school is of fireproof construction and is one of the most up-to-date Collegiates of Western Canada. It has full sized basement, Manual Training and Domestic Science Rooms, Combination Gymnasium, Auditorium, and fourteen class rooms.

Technical Collegiate Institute, on Spadina Crescent, facing the new Traffic Bridge.

The Technical Collegiate Building, erected in 1930, combines beauty of structure with utility. There are 23 full classrooms, 4 laboratories, 2 typewriting rooms with 160 machines, and 3 large well-equipped shops which house the electrical, machine-shop, woodworking, and motor mechanics departments. The auditorium combines an acoustic assembly-hall, seating 800, and the largest gymnasium floor in Saskatoon.

Regular three-year courses are given in commercial work, home economics, and industrial work, along with all subjects requisite for higher academic pursuits.

SCHOOL FOR THE DEAF

The School for the Deaf is a provincial school for children of good mentality who are too deaf to attend public schools. It opened for the first time in September, 1931, and has a present enrollment of 121 pupils from all parts of Saskatchewan. Ninety-seven of these children were previously enrolled in Quebec and Manitoba Schools for the Deaf.

The school operates three departments: Oral in which speech and speech reading are taught; Manual in which finger spelling and the sign language of the deaf are the chief means of instruction; and the Vocational Department for all pupils above the third grade who may become proficient in some vocation to fit them to earn their living on completion of their course. Through a special arrangement part of the vocational work has been done by the pupils at the Saskatoon Technical Collegiate.

Any deaf child in Saskatchewan between the ages of six and eighteen is eligible for admission. Visitors may be advance arrangement inspect the building and see the school work. The chief officers of the school are:
Superintendent-Principal—Edwin G. Peterson
Matron—Alice C. Langley
Bursar—Rev. C. W. Downer
Supervising Teacher—Dena Hagen
Chief Supersivor—R. J. D. Williams

EMMANUEL COLLEGE
In Affiliation with the University of Saskatchewan

The College is governed by two bodies a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation. Also by a Board of Governors appointed by the Colonial and Continental Church Society of London, England. The Council grants standing in Theology, and the Board controls all matters affecting the welfare of the College, and the Proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides: (1) an associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate of Theology, and (4) a course leading to the Degree of Bachelor of Divinity.

NOTICE

✦ The Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner.

✤ This Symbol indicates that a telephone is located at this number on the street.

This new Home Owners, Tenants and Phone Directory is compiled from information taken on a special house-to-house personal canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from someone at each residence. Where occupants have been absent the "owner" information has been left out.
